

polymer *is changing*

LATEST NEWS

✓ New Editors

S. Richard Turner (Virginia Tech)

Polymer Chemistry Editor for the Americas

Matthias Ballauff (Bayreuth)

European Editor for Polymer Physical Chemistry

✓ Polymer is continuously improving quality

Less than 40% of all submitted papers are accepted for publication

Continuously increasing impact factor

✓ Extremely fast publication

Online within **3-4 weeks** and in print within **6-8 weeks** after acceptance

✓ Online submission available and strongly encouraged

authors.elsevier.com/journal/polymer

✓ Significant increase in visibility of each paper via ScienceDirect

www.sciencedirect.com

SCIENCE @ DIRECT®

✓ Free reproduction of figures in colour

Free reproduction in colour of *all* figures in the **online** version of the paper **PLUS**

Free reproduction in colour of *selected* figures in the **print** version of the paper – if use of colour is essential (at the discretion of the accepting Editor)

✓ Feature Articles

Short reviews on hot topics written by both established leaders and rising stars

www.elsevier.com/locate/polymer

polymer *is raising its standards...*

EDITORS

Senior Editors:

S. Z. D. Cheng **T. Hashimoto**

Honorary Editors:

R. K. Eby **Y. Imanishi** **I. M. Ward**

Asian Editors:

Professor C. C. Han (*all subject areas from China*)

Joint Laboratory of Polymer Science and Materials,
Institute of Chemistry, The Chinese Academy of Sciences,
Zhongguancun, Beijing, 100080, China.

Professor K. Tashiro (*physics*)

Department of Future Industry-oriented Basic Science and
Materials, Graduate School of Engineering, Toyota Technological
Institute, Hisakata 2-12-1, Tempaku, Nagoya 468-8511, Japan.

Professor S. Ito (*physical chemistry and functionality*)

Department of Polymer Chemistry, Graduate School of Engineering,
Kyoto University, Katsura Campus, Kyoto 615-8510, Japan.

Professor T. Masuda (*chemistry and synthesis*)

Department of Polymer Chemistry, Graduate School of Engineering,
Kyoto University, Katsura Campus, Kyoto 615-8510, Japan.

Editors for the Americas:

Professor S. Z. D. Cheng (*physics and physical chemistry*)

Maurice Morton Institute and Department of Polymer Science,
Goodyear Polymer Centre, Room 936, University of Akron, Akron,
OH 44325-3909, USA

Professor S. R. Turner (*chemistry and synthesis*)

Macromolecules and Interfaces Institute, Virginia Tech,
Blacksburg, VA 24061, USA

European & Rest of the World

(*outside the Americas and Asia*) Editors:

Professor G. Krausch (*physics*)

Physikalische Chemie II, Universität Bayreuth,
D-95440 Bayreuth,
Germany

Professor M. Ballauff (*physical chemistry*)

Physikalische Chemie I, Universität Bayreuth,
D-95440 Bayreuth,
Germany

Professor A. H. E. Müller (*chemistry and synthesis*)

Makromolekulare Chemie II, Universität Bayreuth,
D-95440 Bayreuth, Germany

Computational and Theoretical Polymer Science Editor:

Professor J. E. Mark

Department of Chemistry, University of Cincinnati,
Cincinnati, OH 45221-0172, USA

Polymer - Instructions to Authors

A more detailed set of instructions can be found at <http://authors.elsevier.com/journal/polymer>. Please consult these instructions before submission.

Since 1 September 2005 manuscripts can only be submitted online via the Elsevier Editorial System (EES) at <http://ees.elsevier.com/jpol>. Online submission considerably shortens the overall publication time.

Submission of Manuscripts

Polymer publishes original research from all areas of polymer science and technology, with emphasis on molecular or meso-scale interpretation of data. Papers from new emerging areas of the field are particularly welcome. The journal publishes regular articles, communications (novel, unexpected experimental results or interpretation presented within 4 printed pages) and feature articles (usually invited by the Editors). During the online submission authors are requested to choose the appropriate editor from a dropdown menu, according to the geographical location of the corresponding author and the subject matter of the paper.

Papers on computational and theoretical polymer science from all over the world should be submitted online via EES to Professor J. E. Mark.

Papers from the Americas should be submitted online via EES to one of the following editors, according to the subject matter: Professor S. Z. D. Cheng (*physics and physical chemistry*) Professor S. R. Turner (*chemistry and synthesis*).

All papers from China (in all subject areas) should be submitted online via EES to: Professor C. C. Han.

Papers from the rest of Asia should be submitted online via EES to one of the following Editors, according to the subject matter: Professor K. Tashiro (*physics*) Professor S. Ito (*physical chemistry and functionality*) Professor T. Masuda (*chemistry and synthesis*)

Papers from Europe and the rest of the world should be submitted online via EES to one of the following Editors, according to the subject matter: Professor G. Krausch (*physics*) Professor M. Ballauff (*physical chemistry*) Professor A. H. E. Müller (*chemistry and synthesis*).

Full contact details are provided on the inside front cover of the journal and on the homepage. If in doubt, please consult the publishers PRIOR to submission: authors@elsevier.co.uk

Author Details

All authors must provide full affiliations, e-mail and postal addresses, telephone and fax numbers.

Style and Language

Manuscripts should be written in clear concise English. Authors whose native language is not English should have the spelling, grammar and style checked by someone fully proficient in the English language. **Manuscripts which are not written in fluent English will be rejected automatically without refereeing.**

Revision

If revision of the original manuscript is required, authors will have a maximum of four months (from receipt of the referees comments) to revise and re-submit. Authors are allowed to revise the original manuscript only once. If further revisions are requested the manuscript will be treated as a new submission.

Submitting Manuscripts on Disk

Elsevier now publishes all manuscripts using electronic production methods, and therefore *needs to receive the electronic files of your article with the hardcopy of the accepted version, if you have submitted your paper as hardcopy*. Electronic files can be submitted on floppy disks, ZIP/JAZ disks, or CD-ROMs. To ensure fast and easy processing of floppy disk submissions, please use the following guidelines:

1. Name your files using the correct extension, e.g. Fig1.cdr, tbl1-6.xls, text.doc, fig1a.eps, fig1.tif, etc.

2. Label all disks with your name, journal to be published in, and filenames. Please also include details of the word-processing software, compression software, and platform (PC, Mac, UNIX etc) used in the creation of your files.
3. Ensure that electronic and hardcopy versions of your manuscript are identical. In cases of a discrepancy, the hardcopy version will be used as the definitive version by the production team.

Guidelines for Text Files and Formats

Do not use excessive layout styling, however do use bold face, italic, subscripts, superscripts etc.

Basic guidelines for submitting artwork/illustrations: For detailed instructions on the preparation of electronic artwork, consult Elsevier's Author Gateway at <http://authors.elsevier.com>.

For best results, illustrations should be submitted at the actual size at which they should appear in the journal and fit a single column width. A double column width will be considered only when absolutely necessary to the clarity of the figure.

	Single	Double
Width Minimum		10.5cm
Width Maximum	8.3 cm	17.8 cm
Depth Maximum	24.0 cm	22.0 cm
Font size Minimum	6 pt	6 pt
Line width Minimum	0.5 pt	0.5 pt

1. TIFF or EPS files are the preferred format. Suggested packages for line graphics are Adobe Illustrator (version 3.0 or above), Freehand, and Corel Draw. Files of scanned line graphics can be accepted preferably at a resolution of 1000 dpi, for scanned halftones (300 dpi) and scanned line/tones (500 dpi).

2. Black & white photos, micrographs etc should not be saved as colour.

3. Colour illustrations should be scanned at 300 dpi (500 dpi for colour/line tones). Colour reproduction is available if the author is prepared to bear the additional reproduction and printing costs. A quotation will be provided on request. At the editors discretion colour may be provided at no cost to the author, if it is deemed essential to the clarity and presentation of the article. We now offer free reproduction of colour figures in the electronic version of the journal (available on ScienceDirect and other sites) even if the same figure appeared in black and white in the print edition of the journal. To benefit from this facility authors should provide their figures in both colour and black and white versions (file and/or hardcopy).

4. Multimedia files could be incorporated in the electronic version of the paper only and should be supplied in .mov, .avi, .gif or .mpg formats.

Proofs and Offprints

Proofs in PDF format will be sent to the corresponding author via e-mail and should be returned within 48 hours of receipt. Corrections should be restricted to typesetting errors. Twenty-five offprints will be supplied free of charge. Additional offprints and copies of the issue can be ordered at a specially reduced rate using the order form sent to the corresponding author.

Copyright

All authors must sign the "Transfer of Copyright" agreement before the article can be published. Authors are responsible for obtaining from the copyright holder permission to reproduce any figure for which copyright exists. Elsevier Science Ltd. will send the copyright form to corresponding author for signature after the manuscript is accepted for publication.

Author enquiries

For enquiries relating to the submission of articles (including electronic submission where available) please visit Elsevier's Author Gateway at <http://author.elsevier.com>. The Author Gateway also provides the facility to track accepted articles and set up e-mail alerts to inform you of when an article's status has changed, as well as detailed artwork guidelines, copyright information, frequently asked questions and more.

Contact details for questions arising after acceptance of an article, especially those relating to proofs are provided after registration of an article for publication.
