

Toshiyuki KURIHARA, Ph.D.

Associate Professor

Program: Environmental Science and Technology

Area: Earth Science

Undergraduate: Dept. of Geology

Professional Expertise

Paleozoic-Mesozoic tectonic evolution of East Asia: Field geology and radiolarian biostratigraphy.

Research Fields of Interest

- Stratigraphy and tectonic history of the Middle Paleozoic in Japan.
- Devonian-Carboniferous accretionary complex in Mongolia.
- Ordovician-Silurian accretionary complex (Southern Uplands terrane) of Scotland.
- Jurassic accretionary complexes (Japan and Far Eastern Russia).
- Living radiolarians of the Japan Sea.

Education

2002: Doctor of Science in Geology, Doctoral Program in Geoscience, University of Tsukuba, Japan

1999: Master of Science in Geology, Doctoral Program in Geoscience, University of Tsukuba, Japan

1997: Bachelor of Science in Earth Science, University of Tsukuba, Japan

Professional Societies and Activities

1. The Geological Society of Japan
2. The Palaeontological Society of Japan
3. Society for Science on Form, Japan

Awards

1. The Geological Society of Japan, Bunjiro Koto Medal, 2011
2. The Geological Society of Japan, Bunjiro Koto Medal, 2006
3. The Geological Society of Japan, Young Researchers Medal, 2004

Radiolarian chert in Mongolia.
